

Another Election In Dysart?

Rumors are flying thick and fast that we may have another election in Ward II Dysart. It would appear that councillor elect Nicol is slated to be disqualified under Section 35 (Q) which reads as follows:

"A person having himself or by or through another an interest in any contract with the corporation or with any commission or person acting for the corporation or in any

contract for the supply of goods or materials to a contractor for work for which the corporation pays or is liable directly or indirectly to pay, or which is subject to the control or supervision of the council or of an officer of the corporation, or who has an unsatisfied claim for such goods or materials."

It just so happens that the councillor elect for Ward II is a joint owner of an

apartment house in Haliburton with Dr. L. H. Carroll who is M.O.H. and who of course receives remuneration from the municipality.

Despite rumors to the contrary the successful candidate says that in justice to the electors who backed her at the polls she is not resigning without obtaining competent legal advice on the matter.

Long Lake Hearing Postponed

A hearing scheduled for last week regarding an action instituted by Edward C. Soan to quash by-law 61-17 passed by the Dysart council on August 16 has been laid over for a period of two weeks.

The by-law called for the expropriation of a right of way on lot 5, conc. 4 Dudley to provide resident and tourist alike with proper access to Long Lake.

As we have stated before ratepayers here down through the years have been taxed to provide monies to keep this road passable and these same ratepayers are getting browned off having to contend with barricades and other delaying tactics having to do with this matter.

We are informed that council has received a petition signed by some 24 cottage owners asking that the council desist in their efforts in this connection. If we are not very much in error some of the cottage owners whose names are on this very petition were among those who protested loudest when they found the road blocked.

Some of the names on this remarkable petition are signed, others are typewritten. Quite a novel way of signing a petition we would say.

However the municipality is not lying down on this matter and a large petition signed by ratepayers all over the township is being circulated which will demonstrate that residents are solidly behind council in their efforts to provide access to Long Lake.

Technical Addition To High School

The approval has been received from the Department of Education to provide technical education at high school.

Facilities which will be added to make this training possible will be an automotive shop, a machine shop, an electrical shop, a boys' occupational training room and a girls' occupational training room.

In addition, the commercial training facilities will be increased by the addition of one typing and one business machines room.

An additional chemistry lab will also be provided.

The present cafeteria will be converted to a business machines room and the new cafeteria, with increased capacity will be constructed.

These facilities will enable the school to offer the new four and five year technical programs and the four and five year commercial programs in addition to the present academic program.

These facilities will increase the capacity of the school to accommodate 700 students. At the present time sketch plans for the new addition are being drawn up by the architect, Gordon S. Adamson, of Toronto.

The entire cost of building and equipping of this addition will be borne by the federal and provincial governments under the Vocational Training Act.

Additional information regarding the courses and facilities will be provided in a later edition.

Sewage Clean-Up Due In Haliburton

Tests are being conducted in Haliburton to ascertain just where the sewage is emanating that from time to time has been dumped into a storm sewer which was built by the Dept. of Highways.

Even though this sewer was built by the department it is impossible to obtain a plan just showing who is hooked on.

However, one thing is sure, the parents of the children who use Head Lake for bathing are going to find out.

This sewer was built, according to our understanding, to take care of the surface water around the town hall and the street in front of the post office, but apparently a lot of places have a tie-in with this drain. We do not think that tests are any good now or in the future unless it can be ascertained who is tied in on this deal.

All are well aware that a serious sewage problem exists in Haliburton but apparently we are going to take no action until our lake becomes so contaminated that it will be unsafe for bathing or any other purpose before our present "do nothing" policy in regard to sewage disposal is abandoned.

In front of my home another storm sewer line opens and flows out onto the street. This drain is supposed to function in time of rain only, but I know that in times when we did not have rain for over a week water could be seen issuing from the drain any day.

However no raw sewage has come down yet so this is not a serious matter but serves to emphasize that we have a real sewage problem on our hands.

DAVE DEAN

a familiar figure in Minden and Haliburton area for some 32 years, for as a young man he hunted in the Drag Lake region but now in his later years he prefers to stay in comfort at a hotel. He is from Kingston mills and is owner of a service station there.

Very rarely has he been known to return without some species of game.

Again this November he has enjoyed a successful hunt in Haliburton county as has done so many other from all parts of Ontario and the U.S.

New Hydro Line

A contract has been let for the cutting and installing of a new hydro line from the switching station at Allsaw to Dwight.

Work on the project will get underway shortly after the beginning of the year.

Accommodation for workers is being sought in Minden, Haliburton, Carnarvon and other points along Highway 35 including Dorset. For further information see the advertisement in this week's classified page.

From what can be learned considerable local help will be required on this job and if so it will be a boon to those who desire work as at this time of year jobs are not too plentiful in this area.

Minden Monarchs To Roll Again

We are glad to hear that the Minden Monarchs, who in the years past, have had some hockey teams in both OHA and the ORHA will, we understand, have a team in the tri-county league.

This is good news to all who are interested in this great sport.

Neither Minden or Haliburton, at time of writing, have ice as the mild weather we have been having has made the making of natural ice impossible. However as the schedule does not get underway until after Christmas we will likely have lots of ice to perform on.

Principal Of Retarded School

We have been informed that Mrs. Ray Welch of Maple Lake has been appointed principal of the Haliburton District Association for Retarded Children's school.

Classes will commence shortly in the Haliburton United Church educational centre.

Best wishes are extended to the new principal for success in the splendid work which she is about to undertake.

INTERESTING INFORMATION

Assessor Lewis Roberts of the Municipality of Dysart et al has been compiling some information for the Department of Travel and Publicity and we feel that some of this information will be of interest to our readers.

The full time population of the municipality is 2,700, our summer population however runs around 16,000.

We have in the township 1,440 cottages or summer homes as many of these cottages are much better equipped than many homes.

One third of the total taxes collected in the municipality are derived from our summer residents.

KINSMEN NEWS

On November 29 president Norm Harrison Jr. presented past deputy governor Lyle McKnight with a gold ring crested with a past deputy governor's Kinsmen badge in appreciation of his outstanding services to District 8 and to the Kinsmen club of Minden.

Mr. Jack Hill spoke on the necessity of opening a special school in Haliburton county for retarded children and that a preliminary school was to be opened in Haliburton after the new year.

Kinsmen Lyle McKnight, Jim Elder, Eldon Deacon and Kinettes Linda McKnight, Barbara Elder and Mabel Deacon represented Minden Kin clubs at the charter night at the Kinette club of Gravenhurst.

The following Kinsmen have been appointed to the area board, Bob Harvey Jr., Elwood Cox, Lyle McKnight, Al Fraser, Jim Hathowski, Bob Austen and J. O. Jackson.

Watch for Kinsmen bingo—details later.

Glamorgan Elections

The recent election in Glamorgan resulted as follows:

Reeve, Willard Billings. Councillors, Mr. Y. C. Graham, R. Fotheringham, H. Langston and George Hancock.

Board of trustees are Alan Madill, Wilbert Switzer, J. E. Pickens, Glen Grahn and Mrs. Ross Agnew.

Combined Choirs To Perform

The combined senior choirs of the Anglican and United churches of Haliburton, together with the intermediate choir of the United church will be heard in a presentation of "Bethlehem" with music by Maunder, on Monday, December 18 at 8 p.m. in the United church.

The public is cordially invited to attend this unique performance, which tells in music the story of the coming of the Christ Child, what it meant to the shepherds and wise men, and what it should mean to us. Plan now to attend this choral production.

Huskies Lose 9-4

The Haliburton Huskies dropped their first exhibition game to Sunderland on Tuesday night. Playing before a good crowd at the Cannington arena the Huskies lost 9-4.

The Sunderland team piled up a 3-0 score in the early minutes of the game and the locals couldn't seem to get the lead.

Murray Hague, Rick Bain, Dave Nicholls and Bill Rinne tallied for the Huskies.

The Huskies had 14 players in uniform with only Stuart Baker out with the cold.

The locals hope to play a few more exhibition games before the regular schedule gets underway.

Curlers Elect Officers

The members of the Haliburton curling club have elected the following officers for 1961-62.

President, Bernard Davidson; vice president, Don Iles; past president, Lester Walling; secretary, Gerald Dawson; treasurer, Reg Willson; executive, Eric McConnell, Don Johnston, Jack Robertson, and Harry Good.

The following activities have been set out, Monday night, men's; Tuesday night, ladies; Wednesday afternoon, ladies; Wednesday night, men's; Thursday night, mixed; Friday night, high school; Saturday night, open mixed; Sunday afternoon, open.

The Skyline bonspiel is set for January 19, 20 and 21 and the second annual mixed for February 3.

ADULT EDUCATION—

Stimulating And Interesting

Adults who have taken one or more of the evening classes provided at our high school, are very enthusiastic about such classes. The vast majority of the students return to night school in the next year, for they have found the classes to be stimulating, interesting and informative.

Here, in the evening classes, we can find an opportunity to investigate many topics in which we might have an interest or to gain skills which will be useful in hobby or vocation.

Here, in the evening classroom ourselves out of our lethargic, monotonous routine; to enliven our interest; to awaken ourselves once again to the lost thrill of discovering new ideas.

A community which is actively engaged in adult education is a community which is progressive and active.

Last year in our community (Continued on Back Page)

New Service Provided By The Post Office

Canadians who send greetings by air mail to friends and relatives overseas will be getting an extra assist from the post office department in having their mail delivered promptly, it was revealed today by the Hon. William Hamilton, postmaster general.

Mr. Hamilton said that regulations regarding the handling of insufficiently prepaid overseas air mail have been amended to speed up delivery of these items. The new regulations will go into effect December 1, in time for the Christmas air mail rush.

The postmaster general pointed out that universal postal union regulations require overseas air mail items to be prepaid at least 75% of the required postage. If prepaid less than 75%, they are automatically carried by surface transportation and often arrive much later than expected.

Under the new arrangements, the Canada Post Of-

fice will attempt to contact the mailer of "short-paid" items by telephone to collect the additional postage, if this can be done without delaying the mail. If the mailer cannot be reached by telephone, the post office will advance the necessary postage to send the item on its way immediately by air transport, and then make use of a special card to collect the money from the sender.

The new system will benefit all Canadian mailers and their correspondents in foreign countries as it will eliminate delays caused by sending the mail by surface transmission, and will make unnecessary the payment of "double deficiency postage" by the recipient overseas.

Mr. Hamilton urged all Canadians to post their Christmas greetings early and to avoid delays by having all overseas letters and parcels weighed at the post office before mailing.

GOODERHAM

Christmas concerts are in the news, stores are decorated and the Christmas spirit prevails.

Recent visitors with Mr. and Mrs. G. W. Barr were Mr. and Mrs. McKague of Cobocok, Mrs. Moore and son Ivan of Bexley.

Visiting with Mrs. Hartin was Mrs. Storey of Harcourt.

On the sick list are Mrs. Nora Carey at Ross Memorial Hospital and Mrs. B. Stoughton at Minden.

Miss Nora Stewart and Mr. Steed of Peterboro bible school spent a week end with Pastor and Mrs. T. Thompson. Mr. Steed sang in a foreign language "Jesus Loves Me" at Sunday school. He took both services on Sunday and favored the congre-

gation with a trombone solo entitled "Moment by Moment." He was accompanied by Mrs. Thompson, pianist.

The final W.A. of the United church was held at the home of Mrs. VanDerVeen with a good attendance. Several Christmas carols were sung. Prayer and scripture reading was by Mrs. VanDerVeen. The minutes were read by Mrs. O. Hartin. Roll call was answered by a scriptural verse which commenced with a D for December.

Mrs. Fotheringham read the topic entitled, "Our reasonable Service." Mrs. Barr read a poem. Mrs. Fotheringham read an article "Look—It's Beautiful." Mrs. Stok of Amsterdam, Holland, was present. Officers for 1962 will be elected in January.

A lovely lunch was served by the hostess.

THE ECHO SPORTS

SPEAKING ON SPORTS

With Christmas fast approaching it's very hard to get people interested in sports meetings. We learn the Minden hockey club held a meeting last week and only two or three turned out. It will be encouraging to see Minden with a team this winter in the same league as Bobcaygeon and Haliburton. Don't be discouraged fellows the season is still young.

One might wonder how the Huskies played hockey in Cannington on Tuesday. The management of the Cannington arena installed artificial ice this year.

The Haliburton ladies curling club have held their first meeting of the year with 15 players on hand and President Mary Walling in the chair. The ladies, who will soon be drawing up their schedule, will welcome new players.

Herb Baker, a former Haliburton Huskies star is back with the Oakville Oaks this

season. We might mention here that Herb is the president of the club.

The Minden curling club will be moving to their new rink in the fairgrounds. The new building serves not only as a new curling rink but also an agricultural building for the Minden fair board.

The Haliburton County minor hockey league are looking forward to another good season with probable entries from Gooderham, Wilberforce, Minden, West Guilford and Haliburton... Bill Henry who played goal for the Huskies last year is now employed in Oshawa... The tri-county hockey league schedule will be published in the Echo upon its release... On the last report we understood Fred Dart was having a try out with the Clinton, N.Y., hockey club. Fred played the past two seasons with the Peterboro Petes of the junior A league... The Wilberforce curling club will be swinging into action for the first time this month.

SCOTTIE LARUE

Scottie LaRue of Haliburton is at present going to school at Woodbridge. We are proud to say that he is also playing hockey. LaRue, who is a good hockey prospect is playing with the Woodbridge Dodgers in the Metro Junior B league.

For the past few years he attended school in Kitchener and came up through the minor hockey league in Haliburton. He was good enough to make the Huskies for two straight years. He was also active in the Boy Scouts.

MIXED CURLING BECOMING POPULAR

The Haliburton curling club will once again have mixed curling.

This proved very popular last season and the club are looking forward to the same response again this year.

The 1961-62 membership is limited to 24 couples and the earliest entries will be accepted.

The general meeting of all those interested in mixed curling will be held at the curling club rooms on Friday, December 15 at 8 p.m. See the advertisement in this issue.

Haliburton Huskies Add Another Nicholls

The Haliburton Huskies, who have joined the tri-county hockey league, are getting ready for the 1962 season.

Coach Ab LaRue has his team in training at the beautiful artificial ice arena at Bobcaygeon.

Twelve players were on hand at the first try out and the coach was very impressed with the players. According to all reports the team shapes up as a strong contender and one that might go all the way in ORHA.

Three new players are already working out with the locals, namely Dick Schell, who looks like a sure bet in

goal; Dave Nicholls, one of the younger Nicholls boys from Bobcaygeon and Dave Sawyer of Gooderham.

With the new players plus Grant Rae, Stuart Baker and George Nicholls all back for another year this team should provide plenty of excitement this winter.

The first exhibition game was held on Tuesday night when the Huskies were guests of Sunderland at the Cannington arena and as we stated two weeks ago the team will have that new look with their new uniforms.

The Echo joins with all the Huskies players in wishing them lots of luck this winter.

FIGURE SKATING CLUB RE-ORGANIZED

The Haliburton figure skating club met recently at the home of Mrs. George Mounstevan and unanimously decided to revive the club which operated so successfully for several years.

Mr. Howard Sutherland has been engaged as instructor for the club which will meet on Saturday afternoons from 2.30 to 4.30 p.m. The club will also have a practice session after school each

Wednesday. Lessons will begin as early as possible in January. The committee in charge is most anxious that as many as possible avail themselves for the instruction arranged for.

Information may be obtained from the president, Mrs. Mounstevan or from the secretary, Mrs. N. Roberts who has charge of the sale of tickets.

News and Views From Minden

Week end guests with Mr. and Mrs. Don James and Mr. Sam Welch were Mr. and Mrs. Bob Rankin of Oshawa.

Congratulations to the newly weds, Mr. and Mrs. Alvin Hogg and we hear that many of the village had a very good time at the wedding dance at the Rod and Gun club Saturday night.

A goodly crowd enjoyed cards at the home of Jean Jackson where she entertained the Kinettes and their husbands. All partook of the delicious lunch and prizes

were given to Chris Dollo, Jean Capon, Marg Lonsberry and Bob Bishop and Len Lonsberry with Lyle McKnight winning the traveling lone hand prize.

Afternoon and evening sessions were held in the United church December 3 at which some 70 persons were in attendance from all over this area and as far away as Sebright. This was in conjunction with the Christian education department and was an introduction of the new curriculum of the United Church of Canada.

At the baptismal service at the United church last Sunday, Tanny Jean, daughter of Mr. and Mrs. Bill Prentice, Lockey Russell, son of Mr. and Mrs. Russell Crawford and John Donald, son of Mr. and Mrs. Earl Palmer were baptized, with the Rev. D. Staples in charge.

Lucky winner of the Christmas cake drawn for at the bingo on Monday night was Mrs. Doug. Pritchard.

Mrs. Ed. Lytle of Kirkfield is spending a while with the Garnet Lytles.

Miss Heather Herlihey who is attending Queen's University at Kingston spent the week end with her parents, Mr. and Mrs. Bob Herlihey and Robert.

Minden W.M.S.

The closing meeting of the W.M.S. was held at the home of Mrs. Nelson Ward Thursday, December 7 with an attendance of 17. The worship service had a Christmas theme.

The secretary's report showed that 236 visits had been made during the year to the sick, newcomers and shut-ins in the community, by some of the members.

Mrs. J. M. Fleming introduced the guest speaker, Mrs. James Fairfield, who gave a very interesting history of the W.M.S. in this

area. It was first organized in 1905. There were from three to seven members, some of whom walked two, three and four miles to attend meetings.

The collections ranged from 27 cents to 41 cents. Occasionally men attended these meetings. Mrs. Stouffer very ably thanked her for her interesting talk.

A beautiful solo "In the Bleak Mid-Winter" was sung by Mrs. L. Coburn with Mrs. Stouffer accompanying.

A report of a trip to the Fred Victor Mission in Toronto was given by three Explorer girls, Misses Lois O'Neil, Penny Godin and Dianne Earle, under the leadership of Mrs. Morgan Prentice.

For her interest in their work, while president of the W.M.S., the girls presented Mrs. Ward with a box of candy.

Mrs. E. A. Rogers was given a plant by the members for 25 years faithful service as treasurer, with Mrs. Fleming making the presentation.

Lunch was served by the hostess assisted by Mrs. E. Windover and Mrs. Finlay.

when **MONEY** is
the logical
gift... Here are three
B of M ways to say "Merry Christmas"

Sometimes a gift of money is the only realistic answer to a Christmas shopping problem. If money is the answer to some names on your list - see the B of M. "My Bank" can provide you with a way to give that takes the chill off cold cash and trims your gift of money with festive decorations.

1. YOUNGSTERS' AND BABIES' PASSBOOKS make a delightful extra for some of the small fry on your list. Your gift of money is entered in a special passbook and enclosed in a Christmas cover guaranteed to make young eyes pop with glee.

2. MONEY ORDERS purchased for Christmas-giving come in gaily-decorated envelopes or folders that clearly spell out your Yuletide wish. Ideal for those "hard-to-buy-for" people on your out-of-town and overseas gift lists.

3. SPECIAL CHRISTMAS CHEQUES are available in two colourful holiday designs - one for personal and one for business giving. They are "gift-wrapped" in a bright cover that glows with the spirit of the season.

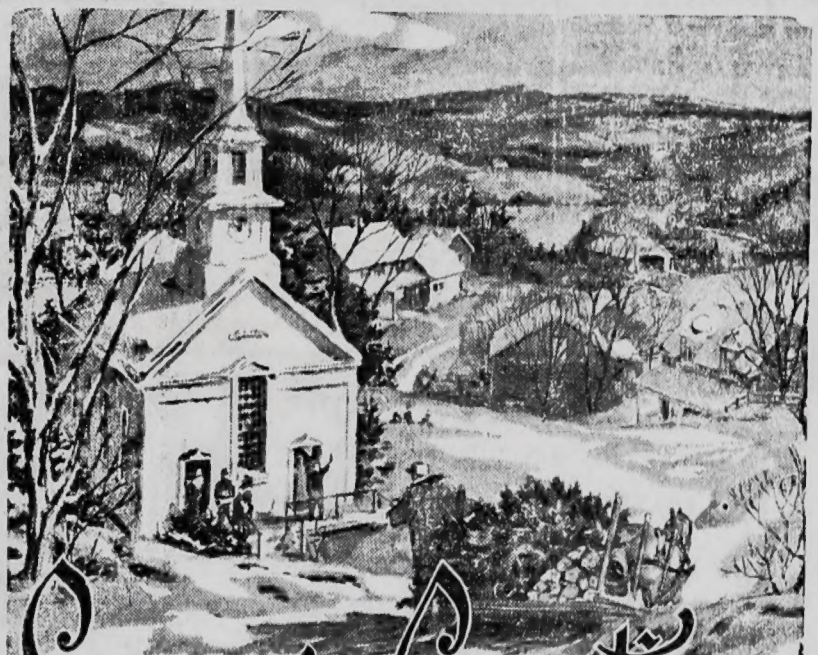

See these special Christmas features at your neighbourhood branch of the B of M today (don't forget to bring your Christmas shopping list).

IN QUEST OF YESTERDAY

A HISTORY OF HALIBURTON
by NILA REYNOLDS

(COPYRIGHTED)
Instalment Seventy-One
THE STANHOPE STORY
Chapter 13

For John and Charity Billings, the years that followed were full ones, building the new barn which accommodated 12 head of cattle, securing steady markets for their surplus agricultural produce, and making plans for their third and final house of native stone.

Miss Harriett Wyatt, who had accompanied them to the new land, shared their fortunes until she met a young man from the adjacent Fourth Lake community, John Hunt. Two other Wyatt sisters, Emma and Anne, consequently came out from Somerset and married local men, James Cooper of Hall's Lake and Edward Sisson of Carnarvon, but whether they arrived in time to attend Miss Harriett's wedding in the Billings' parlor at Blagdon Hill is not known. Mrs. Hunt and her new husband set up housekeeping at Fourth Lake whose waters drain into Maple Lake. Their daughter was the only white child to be born in the ill fated settlement.

Old timers say that some time had to pass in the new location before a pioneer felt the pinch of poverty. The Jackson family at Third Lake reached this stage when their family of four outgrew their Sunday clothes before they could afford to replace them. For this reason they were unable to accompany their neighbors to divine service held in the Maple Lake school house beside the Tom Jones farm as was their custom.

That afternoon the three Jackson teenagers, a boy and two girls, loaded the family dog into the canoe and started off down the lake while their parents rested from their labors.

Like most normal boys, the Jackson lad was a great tease. All were excellent swimmers so he thought it great sport to rock the canoe and annoy his sisters. Unfortunately the dog became excited by his antics and leaped into the water upsetting the frail craft. Panicked by the plunge the girls clutched at their brother and all three drowned locked in each others arms.

When the church goers returned, they found the elderly parents in great distress for no one had returned except the dog who had obviously been in the water. Investigation revealed nothing but the overturned canoe and two hats floating on the waves. The bodies were recovered the following day.

Although an old story claims that two Frenchmen drowned in a logging accident on the Redstone River, were the first to be laid to rest in the Methodist burying ground at Clarke's Corners (now the United church cemetery), there is strong evidence that the three Jacksons were the first to be interred by an ordained minister. Those who remember say they were buried at the north end of the hallowed ground where most of the earlier dated tombstones are found.

The triple tragedy cast such a shadow over the community that one after another the families abandoned the struggle and moved out—some to other parts of Ontario, the majority to join the western migration. First

to leave were the bereaved Jacksons who were quickly followed by the three Hunt families, young George Bates and Martin Krautt.

Of this young settlement at Third and Fourth Lakes with its sturdy cabins and well tilled fields, not one log remains standing upon another. Abandoned to the ravaging elements, it was completely obliterated by the devastating series of fires which swept the area in the wake of the loggers prior to 1910. Had Mr. Billings and his niece not put forth super human efforts, Blagdon Hill would have burned too.

Lack of neighbors did not stampede the Billings into joining the exodus. So great had been the improvement in the health of both that their permanent home, building since 1880, was well on the way to completion. Unlike most country homes which had cellars for storage, Mr. Billings set his home upon bed rock and hollowed out a

beehive shaped cistern behind to store water.

It is probable that John Billings was influenced by a fellow countryman, the idealistic poet designer, William Morris, who restored the pride of English artisans in their work and championed the cause of simplicity in the days when over ornamentation was the fashion.

Although hampered by climatic differences, lack of suitable sand and first quality lime, John Billings managed to fuse the romantic charm of a gabled English home with the stolid endurance of the Canadian hills.

With infinite patience he fashioned door and window frames of eight inch hand hewn oak. The view toward the Muskoka hills is especially lovely for the thick masonry gives the casements a handsome reveal making Blagdon Hill memorable as the house of gracious windows.

One is apt to think of built-in fixtures as a recent innovation, yet the Billings' house, completed in 1885 has built in milk stand, lamp

cabinet, medicine chest and book cases. Although the furnishings of the first house were quickly constructed and utilitarian, the contents of the permanent homes were painstakingly and proudly fashioned. The living room picture frames and one wooden bedstead in particular are ornamented with pie crust carving that must have taken much leisure. The quaintly patterned carpets hooked by Mrs. Billings and her nieces Lizzy (Mrs. John Harrison), and Miss Charlotte Cooper, who came to live at Blagdon Hill following the untimely death of their mother, Mrs. James Cooper, must have been years in the making.

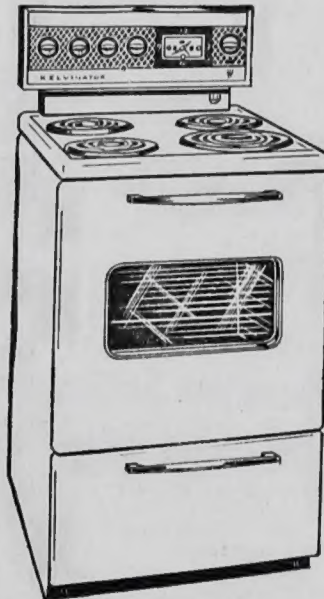

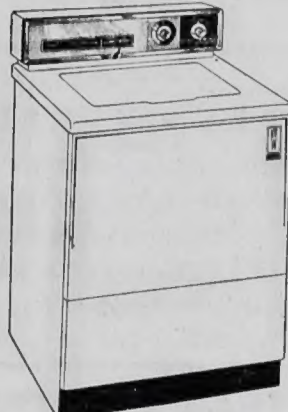

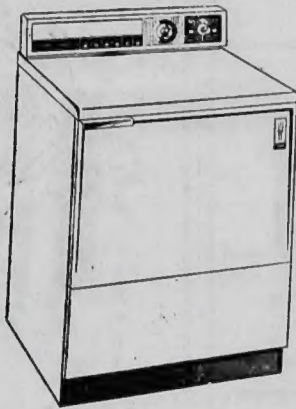

That such an isolated location was worth the great expenditure of time and effort is proven by its survival. Excepting that the trees in the orchard and the lilacs, locust trees and cedars on the front lawn have grown to maturity and Virginia creeper now veils the walls, Blagdon Hill has altered little since 1885. It is probably one of the last houses in the County of Haliburton where one can get the illusion of stepping into yesterday.

YOU AND I . . . and I'M GETTING TIRED!

THE WEEKLY ROUNDUP HALIBURTON

Winter is here and the winter sports will soon be under way. This week the Haliburton curling club (men's division) chose their rinks for the forthcoming season. We understand 14 rinks will make up this year's schedule. In hockey, the minor hockey committee met in the office of the Haliburton County Echo on Monday. The committee are planning big things for the 1961 season. More on this at a later date.

And while still on the subject of winter we find that Christmas is just a little better than a week off. The Royal Canadian Legion at Haliburton are holding their annual turkey bingo and draw for Christmas dinner for eight. Second and third prize is a 20 pound turkey. The date is Wednesday, December 20, 8 p.m.

The sidewalk in front of the Legion hall has now been completed.

While sitting here writing this column a flash came over us about the much needed new bridge at Walling's. We understand that the erection of a new bridge is on the agenda but when are we to get it?

The Rotary-Legion Santa Claus parade is scheduled for December 23 in Haliburton.

A big time is expected for the children.

On a recent trip to Lindsay we were quite surprised to see Kent St. with all the colored lights. It is a sight to behold. From one end to the other the main street is all aglow with yellow lights.

The new showroom and office of the Emmerson Lumber Co. in Haliburton is nearing completion. When finished it will be among the best buildings in the village.

With winter already upon us our thoughts turn to the sunny south. The latest family to leave for a vacation in Florida are the Bruce Henrys.

We are sorry to hear that Oscar Yarnold is confined to bed and we join his many friends in wishing him a fast recovery.

Quite a number of hockey fans from Haliburton attended the exhibition hockey game in Lindsay last Friday night. The event had Lindsay against the NHL old timers.

The ladies of St. George's W.A. held their bazaar in the Legion hall last Thursday evening.

CHRISTMAS TREES— DON'T STEAL YOURS

Where does your Christmas tree come from? Each year many young spruce, balsam and Scotch pine are stolen from private property.

Some of this thieving is the work of organized groups who take trees by truck loads, usually selecting them from areas which are well back from the main roads. The trees are quickly hauled away to nearby towns and cities, where they are sold to unsuspecting citizens.

To attempt to alleviate this activity owners of woodlots and plantations should make regular inspections of their tracts during December, reporting anything suspicious to the Ontario Provincial Police.

In addition to this wholesale robbery many people cut a single tree for their home without receiving the owner's permission. One small tree in a plantation or woodlot containing thousands of such specimens may seem unimportant, but nevertheless one must respect the property of others.

Certainly, to discourage people from making their annual trek to the country in search of the "perfect tree" is far from our intent, but we do urge them to keep the real meaning of Christmas foremost in their minds, that is, see the owner and pay a token for the privilege.

CHRISTMAS TREES FOR QUEEN'S PARK

Plum pudding, turkey, carols, mistletoe, bells, homecomings; these are some of the many wonderful associations of the Christmas season.

For the timber staff in the Lindsay district, the past several years have produced still another "reminder" of the Yuletide season, the responsibility of contributing the Christmas trees which decorate the provincial parliament buildings in Toronto.

What is required? Twenty eight-foot Scotch pines, two matched 20 foot spruce which are placed on the steps at either side of the main entrance, and two matched 50 foot spruce for either side of the walk leading to the main entrance. These trees were delivered to Toronto last week. One 50 footer was obtained in Somerville township and the other in Galway township.

Most families, at some time or another, have experienced the pleasure of wandering through the woods on a bright wintry afternoon searching for their own Christmas tree. Wasn't it surprising how many trees had to be examined and how large an area had to be traveled before that "perfect little tree" was nally located?

You can well appreciate then the problems involved in selecting two trees 50 feet in height that match one another in density, color and taper. "Many are called . . . but few are chosen."

A chain saw rapidly cuts through the trunk, allowing the tree to be gradually lowered to the ground with block and tackle equipment to keep any limb breakage to a minimum. The complete tree is then raised off the ground by a log jammer, allowing a tractor trailer to back in under the suspended tree. The tree is then lowered onto the truck and the branches are tied in as much as possible.

(Continued from Page One) ity, more students enrolled for night school than had been enrolled since 1954, the second year in which such classes were operated.

This resurgence is very encouraging and we hope all those who enrolled last year will return and bring along a friend. Classes begin on Tuesday, January 9.

A preliminary registration form is found elsewhere in this issue. Please complete and return this form as soon as possible. Send no money, the registration fee of \$3 will be payable on opening night.

"INSULATE as you plaster" WITH

The new lightweight mineral aggregate! Architects, Plasterers, Contractors and House owners who have tested MICAFIL all say it is:

- easier to handle — because weighs only 8 lbs. per cubic foot.
- lasts longer — does not absorb moisture, dries without warping or buckling, does not crack, dissolve, disintegrate or rot.
- affords greater protection — against sub-zero cold or intense heat, against fire hazards, favours low insurance rates.
